From Knowledge
to Action

Climate risk insurance benefits

Insurance – More than compensation

Value of (re-)insurance:

- Enabling activity (e.g. driving)
- Financial compensation
- Risk transparency
- Price tag for risk
- Risk awareness
- Risk prevention
- Research and data
- Making investments possible
- etc.

PPP definition

The general understand

PPP according to the Ca

*“An arrangement where a
invest in and work on an a*

MRF urges for widening the concept in a world of risks

A PPP includes a partnership between public sector partners, private sector partners **AND the people at risk.**

Sustainable management of PPP projects
